WHY ROTO?

- worldwide rotomoulder
- more than 40 years tradition
- global producer of high-quality plastic products
- inovative materials - products made of polyethylene, polypropylene, polyamide, XPE and ABS
- production factories in four European countries
- successful manufacturer and reliable business partner

ROTO - leading rotational moulder in Europe with over 4000 different products. Products are exported in more than 50 countries all over the world.

ROTO performs all stages of the business process, from product development, product analysing, own tool production, prototype manufacturing, serial production, marketing & sales, distribution and after – sale service. High quality technical products are result of latest production technologies and strong R&D department.

Soča is a 137-kilometre long river that flows through western Slovenia and east Italy. An Alpine river in character, its source lies in the Trenta Valley in the Julian Alps. Soča is one of the most beautiful rivers in Europe, an important natural treasure in the Triglav National Park. It is famous for its deep emerald colour and brisk rapids in the upstream area. The Soča River is a veritable paradise for water sports enthusiasts, particularly fans of kayaking and fishing, as well as photographers and people looking to relax in natural surroundings. **Visit Slovenia and discover Soča.**

Timo Lehtonen: "It is very easy tracking, but still turning quite nicely. It is pretty excellent boat. It is quite nice to paddle also as solo, of course is made for tandem. Very fast."

CANADIER 2

CANOE

CANADIER2 A classical must have canoe shaped for free time, flawless in all situation, sea, lake or quite river. Stability and versatility makes this canoe perfect for a wide range of users. Made in 3-layer polyethylene. The inner layer provides rigidity to the hull and make it unsinkable, while the external layers protects the foam from impacts.

BURAN 488

TOURING KAYAK

Buran 488 the kayak for tall and / or heavy paddlers - or persons with limited mobility. XL - cockpit for easy entry and exit. High volume - extreme load capacity, plenty of space in the kayak especially in the leg and foot area. Also foot sizes 47- enough space and are positioned correctly. Very stable and fast - like the shorter version. In the rear area a newly developed feature - a multifunctional insert - easily upgradeable for a rudder. Useable for a drainplug or a rudder sleeve.
